SUMMARY

Proactive IT Systems and Web Developer with experience delivering end-to-end system implementations, requirements analysis and technical support across SAP Business One, web applications and database-driven solutions. Strong background in SQL, system configuration and add-on development, with a track record of improving workflow reliability and consistency through automation and integration. Comfortable translating business needs into practical technical solutions and resolving issues efficiently with stakeholders. Well suited to roles involving service deployment, maintenance and integration-focused engineering.

EXPERIENCE

IDuela Developer Trainee

Apr 2024 - Mar 2024

RPC DATA LIMITED - Gaborone

Analysed and finalised system requirements for technical implementations, translating business needs into workable configurations. Engineered bespoke add-on solutions using the SAP SDK and supported configuration of IDuela HR and Payroll modules. Contributed to end-to-end client deployments by ensuring the solution was aligned to implementation requirements and delivered reliably.

IT Assistant Officer

Jul 2022 - Nov 2022

KUTLWANO JUNIOR SECONDARY SCHOOL - Gweta

Provided technical support to staff and students across school systems, responding to user issues and maintaining service continuity. Managed school-wide systems and enhanced web-based applications to improve usability and stability. Oversaw data integrity and resolved support incidents efficiently to keep day-to-day operations running smoothly.

PROJECTS

IDuela HR and Payroll System configuration for NARDI — NARDI

Oct 2024 - Dec 2024

Configured IDuela HR and Payroll modules for NARDI, supporting successful system deployment and alignment with client requirements.

Loan Management System specification for Thobela Pawn Shop — Thobela Pawn Shop

Jul 2024 - Dec 2024

Defined system specifications and gathered requirements for a Loan Management System for Thobela Pawn Shop, translating business needs into a structured solution.

Request and Approval System for NARDI — NARDI

May 2025 - May 2026

Built a Request and Approval System using PHP and IIS, integrating Mailtrap for reliable email notifications and streamlining approval workflows.

Portfolio website — My-Portfolio

Jan 2026 - Jan 2026

Developed a responsive portfolio website to showcase technical projects and demonstrate modern web design principles.

SAP Business One (SAP B1) CSV Multiple Journal Entry Add-On — RPC DATA LIMITED

Apr 2026 - Jul 2026

Designed and developed a SAP Business One CSV journal entry add-on that automated posting up to 500 journal entries at once. Used PHP and SAP DI API to validate records, map CSV fields to SAP journal structures and improve consistency while reducing manual processing effort.

Point of Sale — Personal Project

Jul 2026 - Aug 2026

Architected and deployed a comprehensive point of sale platform, optimising checkout workflows and ensuring seamless synchronisation of real-time inventory and transaction records. to login[username=visitor password=Visitor@123], visitors/trainees can not make any purchase or system configuration. link=https://motswedi.liveblog365.com/login.php

EDUCATION

Bachelor of Engineering: Computer Engineering - Minor in Computer Science 2024

Gaborone

GPA: 2.83

Botswana General Certificate of Secondary Education 2017

Nata

Junior Certificate 2015

Gweta

PSLE 2012

Nata

CERTIFICATIONS

Bachelor of Engineering (Honours) in Computer Engineering 2024

other

RELEVANT COURSEWORK

Automated Attendance Tracking System (Java & Arduino UNO) 2023

Botho University, Botswana

Skill: Embedded systems integration and application development (Java, Arduino UNO, keypad interfacing)

IT Support Attachment & Teaching Practice (Computer Basics) 2022

Kutlwano Junior Secondary School (JSS), Botswana

Skill: Operating system installation, server management, and basic computer instruction

VOLUNTEER WORK

Volunteer Coordinator (Village Clean-Up) May 2025 - Present

Kgotla Community Initiative (Gabane Village) - Gabane, Botswana

Participated in and supported regular kgotla sessions focused on mobilising community members for village-wide clean-ups. Helped coordinate group attendance, encouraged shared responsibility for local cleanliness, and contributed to the planning and execution of cleaning activities across communal areas. Developed strong skills in community engagement, organisation, and clear communication while contributing to a cleaner, healthier village environment.

SKILLS

Data Science & Analytics: SQL, Statistical analysis, Programming (Python, R)

Software Development: Programming languages (Python, Java, C++, JavaScript, Ruby, Swift, Kotlin), Data structures, Databases (SQL, NoSQL)

Database Management: SQL, DBMS (Oracle, MySQL, SQL Server, PostgreSQL), Database design, Backup & recovery

IT Support: Troubleshooting (hardware, software), Operating systems (Windows, macOS, Linux)

LANGUAGES

English
